

Tammuz 5768 – Translated from the original Hebrew

A Special Notice

To all those that do and encourage others to do, including travel agencies planning trips to our Holy Rabbi, Rabbi Nachman of Breslev, may his merit be upon us.

In light of the request of the great Rabbi Nachman of Breslev to travel to his holy gravesite for the days of Rosh Hashanah we are instituting an obligatory sponsorship so that, with the help of G-D, we have a medical clinic for the times of Rosh Hashanah in Uman.

It is known that the medical clinic in Uman is very important, as over 1,500 people have been treated in this clinic each year. Amongst the many people who are treated there are hundreds of asthma sufferers, tens of diabetics, people with blood pressure issues and heart problems, **that if they were not treated by the medical clinic their state would come to a matter of life or death.**

The trip to Uman is a very difficult and long trip, many times taking tens of hours. The trip to Uman, also for many, includes lack of sleep and improper eating habits, taking a toll on the state of health for its travelers and causing sickness. On top of this, many of the people traveling are already sick with different illnesses, including people who are extremely and dangerously ill; who are going to pour out their hearts by the gravesite of Rabbi Nachman of Breslev about their state of health, and in the meantime their health can deteriorate to danger for their life. And unfortunately we have had to deal with treatments and immediate surgeries in the Ukrainian hospitals, including even sending the sick by air on Rosh Hashanah to get immediate medical help.

In the past few years the medical clinic has entered into extreme debts. The costs for bringing and use of the expensive medical equipment and the supply of medical staff and specialists, who give their best, quickly add up. Especially this year which includes Rosh Hashanah and the Shabbat before and after it, the cost for this year's medical clinic is close to almost \$100,000!

Therefore, we are turning to the travelers and all people who would like to have a merit in this task, to not withhold this important medical clinic, and that each and every person takes upon themselves a part of the clinic's costs.

And to all travel agencies, we are turning to you, a big merit can be on your behalf, please charge every traveler an extra \$5 on top of their ticket price for the medical clinic in Uman.

May it be G-D's will that in the merit of fulfilling the will of Rebbe Nachman of Breslev, to travel to Uman for Rosh Hashanah, we should all be blessed with the good that Rebbe Nachman of Breslev has promised us.

With the blessing "I will remove all sickness from in you"

Elazar Mordechai Kenig
